## **Intern / teaching assistant wanted!**

Are you considering a career in teaching or the environment? Or are you retired and looking for a way to meet new people and share your knowledge? Are you punctual, friendly, ecological-minded, and reliable?

Acterra is a 501(c)(3) non-profit that brings people together to find local solutions for a healthy planet. We are conducting a pilot program in Redwood City to teach landscaping professionals and homeowners about environmentally friendly landscaping; water conservation, reducing pesticide usage, proper plant selection, and more. The program is based on this model: <http://www.green-gardener.org/>.

We are seeking a special volunteer and/or intern to assist with the classes and planning process. Bilingual Spanish ability and familiarity with the subject matter is preferred, but not required. You must be available during the class times (Wednesdays from 3:30 – 6:00 and/or 6:00 – 8:30 in Redwood City) and for some planning meetings and administrative work (flexible schedule).

This is not a paid position, but we are willing to provide any documentation needed to help you get course credit. This is an opportunity to work with an experienced teacher, learn a successful and relevant environmental landscaping curriculum, and improve or solidify your skills and contacts in environmental work and the non-profit world.

This pilot project is in the planning stages now. Classes begin March 10 and run for eleven weeks.

If interested, please send a resume to Miriam Sachs Martín at [m.sachs.martin@gmail.com](mailto:m.sachs.martin@gmail.com).
