

Take action to reduce global warming by helping your neighbors save energy!

Acterra

ACTION FOR A HEALTHY PLANET

*The energy we use at home accounts for about 21% of U.S. global warming pollution. That means smart choices at home can really make a difference! These climate friendly choices are **easy to do** and not only **save energy** but **save money** too!*

## Volunteer with Acterra's **Green@Home** team!

### What do Green@Home volunteers do?

Green@Home volunteers meet with residents in their homes to install simple energy-saving devices and create home energy conservation plans.

Volunteers demonstrate environmentally friendly choices and foster a deeper awareness of the need for change.

Green@Home volunteers are trained to perform a basic home energy-saving audit with a Kill-A-Watt meter and do the following tasks:

- Adjust water heater and refrigerator temperatures
- Install water use efficiency faucets aerators & shower heads
- Place 3 free compact fluorescent light bulbs
- Install retractable clothesline (if desired)
- Weatherstrip a door

### How can I volunteer?

Register to attend the next Green@Home training in:

**WINCHESTER NEIGHBORHOOD, SAN JOSÉ:**

**WEDNESDAYS, NOVEMBER 9 & 16, 5:30 pm - 9:30 pm**

Sign up online at, [greenathometraining.eventbrite.com](http://greenathometraining.eventbrite.com)

Or contact Lisa Dorn at: [lisad@acterra.org](mailto:lisad@acterra.org) or call (650) 962-9876 x380

Volunteers also welcome to help with outreach events, scheduling HouseCalls, organizing tool kits, follow-ups and data entry.

For more information or to learn about future training dates, visit [www.acterra.org](http://www.acterra.org) or contact Elizabeth Sarmiento at [elizabeths@acterra.org](mailto:elizabeths@acterra.org) or call 650.962.9876 x 354

The Green@Home project is a **FREE** service offered by Acterra, with funding from the Bay Area Air Quality Management District, City of Cupertino, Mountain View, City of Palo Alto Utilities, City of Redwood City, Palo Alto Community Fund, San Francisco Foundation, Santa Clara Valley Water District, and Palo Alto Hardware.
